

BULGARIA FAILS TO ANSWER ULTIMATUM; TIME EXPIRED TODAY

NO REPLY HAD BEEN RECEIVED BY RUSSIA AT 4 O'CLOCK IN THE AFTERNOON.

GREECE WILL ENTER PROTEST

Will Make Formal Statement On the Landing of Allied Troops At Saloniki.

(Associated Press)
At noon today Petrograd had received no answer to her ultimatum to Bulgaria which, contrary to first reports, was not delivered until 4 p. m. Monday. The time limit expired at 4 p. m. today (9:30 a. m. New York time).

Convention Signed.

According to official dispatches a military convention was signed some time ago between Bulgaria and Germany and Austria.

Greece Will Protest

Athens dispatches say that Greece will be obliged to raise a "formal protest" against the landing of the allied troops of Saloniki, where the French and British are reported to have been put ashore, because under the Greek constitution special legislation is necessary to sanction such landing.

However, the Greek minister at London stated today that the Greeks are glad to have the allied troops land at Saloniki.

Roumania Not Ready.

The Roumanian premier is reported to have declared that the hour has not yet arrived for Roumania's participation in the war.

Offer Withdrawn.

It is authoritatively stated in London that the offer of the entente allies to Bulgaria, conditioned on her adhesion to the allies in the present war has been withdrawn.

"Sold Constantinople."

Paris dispatches quote one of the leaders of the Radical Turk party as saying that the young Turks have "sold Constantinople to Bulgaria with a pledge of receiving in exchange, Russia's Asiatic possessions, Egypt and all of North Africa in event of the central powers winning."

Thus the greater part of the Muslim world would come under Turkish dominion.

Bombardments Continue

A fairly violent bombardment in the Artois region, in which both sides participated, continued yesterday, reports Paris. In the Champagne district the artillery exchanges continue.

Blames Russia.

To the Associated Press the Bulgarian legation at London said: "Russia has precipitated the trouble in the Balkans by insisting that a handful of German officers in civilian dress be expelled from Bulgaria."

Berlin Statement.

The British attack on the German fortification north of Loos has again been repulsed with considerable loss, says today's Berlin statement. The German war office also adds that the allies' offensive in the west was a do-or-die effort to end the war, and that it failed.

Bulgaria's Attitude.

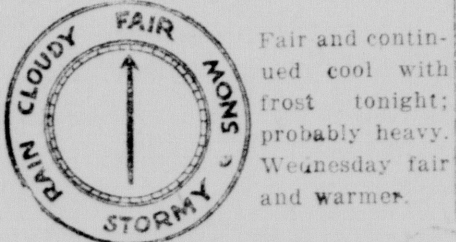

A Sofia dispatch quotes the Bulgarian premier as saying: "We are confronted with war and we must defend our national interests. We must wrest from our enemies everything they took two years ago."

Find Rock Island Man Dead In West Murder Suspected

G.A. McDonald, Retired Merchant Found Nude Close To Water

Santa Monica, Cal., Oct. 5.—City and county officials are investigating the death of G. A. McDonald, a retired merchant of Rock Island, Ill., whose nude body was found on the beach a short distance north of here last Friday. Identification was made by Dr. W. H. Carl of Los Angeles, a nephew. The body was found close to the water and at first it was believed that drowning was the cause of death. Later investigation, the police said, showed there was no water in the lungs, as would be the case had drowning been the cause of death.

According to Dr. Carl, Mr. McDonald usually carried large sums of money and wore a large diamond ring. Officers have been unable to find the clothing, nor was a ring found on the body.

THOMPSON'S ORDER CAUSES SENSATION

POLITICIANS STARTLED BY CHICAGO MAYOR'S SUNDAY CLOSING RULING.

IS EFFECTIVE NEXT SABBATH

(Associated Press)

Chicago, Oct. 5.—Mayor William Hale Thompson's order that 7,152 saloons, cafes and gardens obey the Illinois Sunday closing laws, delivered in his message to the city council last night, has caused a tremendous sensation in political circles and among the liquor interests. According to the latter many of the small saloons will be forced out of business by the ruling.

It was clearly inferred from this statement by the Mayor, contained in his annual message to the council, that he will revoke the license of any saloonkeeper hereafter found selling who, beer or liquor on Sundays.

He stated that he had received numerous complaints from private citizens and from various organizations to the effect that the state law is being violated by licensed saloonkeepers, who keep their places open at all hours on the Sabbath, and dispense liquors, beers and wines openly. These complaints, Mayor Thompson told the council, he had referred to the corporation counsel, Richard S. Folsom, who had delivered a written opinion advising the Mayor that, despite the fact the city ordinances allow saloonkeepers to sell liquor on Sunday, this ordinance is of no effect, as it is in conflict with the state law.

NEW HAVEN OFFICIALS SOON TO FACE COURT ON CHARGES OF CONSPIRACY.

NEW HAVEN OFFICIALS and GRAND CENTRAL STATION, NEW YORK OFFICE OF RAILROAD

Financial and railroad men in New York and other cities are giving much attention to the coming trial, on Oct. 13, of directors of the New York, New Haven and Hartford Railroad company, under indictment for alleged violations of the criminal provisions of the Sherman anti-trust law. Circuit Judge William H. Hunt in a decision filed in the criminal branch of the United States district court in New York city, granted a separate trial to Alexander S. Cochrane and denied similar motions made in behalf of Lewis Cass LeMay, Charles P. Brooks, Charles M. Pratt, Henry K. McIlwain and Frederick F. Brewster, directors of the company. Ruling in Cochrane's favor, Judge Hunt stated in his opinion that he did not become a director until 1909, and the government had not strongly opposed the motion for a severance because of doubt as to the degree of guilt. He was said to be in the same class as George F. Baker, T. De Witt Cuyler, Theodore S. Vail, Francis T. Maxwell and Edward Milligan, other directors, to whom were granted separate trials a couple of months ago. Messrs. LeMay, Brooks, Pratt, McIlwain and Brewster will therefore be tried on Oct. 13 with the other eight defendants, William Rockefeller, George Macculloch Miller, D. Newton Barney, Robert M. Taft, James Hinton Robertson, James Hemingway and E. and D. Robbins. The other three indicted directors, John L. Billard, James S. Elton and William Skinner, have received immunity because of testimony which they gave while witnesses before the federal grand jury and the interstate commerce commission. The pictures show, from left to right, Messrs. Rockefeller, Brooks, Brewster and McIlwain.

NO ARABIC NOTE HAS BEEN GIVEN LANSING

AMBASSADOR VON BERNSTORFF SECRETARY ORAL ASSURANCES IN CASE

INDICATE A QUICK SETTLEMENT

(Associated Press)

Washington, Oct. 5.—Secretary Lansing announces that Germany has disavowed sinking the Arabic and is prepared to pay indemnity for American lives lost.

New York, Oct. 5.—German Ambassador von Bernstorff today gave Secretary of State oral assurances with respect to the Arabic case which point to a satisfactory settlement of the matter.

It has been learned, however, from Count von Bernstorff, the German ambassador, that contrary to newspaper comments published since Saturday when the ambassador paid Secretary Lansing a brief call at the Biltmore that the status quo of the submarine issue between Germany and the United States has not changed in any particular in the last two weeks. When asked concerning comments on the terms of a "note" supposed to have been given to Secretary Lansing Saturday, Ambassador von Bernstorff declared that at that time he had handed no note, or findings, or document of any kind to Mr. Lansing. With considerable heat he asserted that "all the newspaper comments printed concerning my visit with Secretary Lansing are absolute guess work."

"The report that a note has been handed to Secretary Lansing by me," declared the count, "is false. I handed Mr. Lansing nothing. All this talk about a reply on the Arabic case being unsatisfactory and so on is simply made up. I simply had a personal talk with Mr. Lansing in which we discussed the problem of how an agreement in terms is to be reached. That was all."

"There are only three people in this country who know anything about the negotiations now being carried on by the two countries and why should so many others have so much to say when they really know nothing about it?"

New York, Oct. 5.—In nearly every series for the world's baseball championship some player on each of the contending teams has been picked by the fans as a tower of strength in some department and in the mind's eye of the baseball public he stood head and shoulders above his co-workers. This year's contest for the premier title of the diamond will prove no exception to this accepted fact. In looking over the list of eligibles for the coming battle between the Philadelphia Nationals and the Boston Red Sox, Alexander and Speaker naturally are the first to strike the eyes of even the casual observer as the ones who may furnish the star plays of the coming contest. Many other players, however, on both sides, have shown

THANKS DIXON MEN FOR HELPING UNION

REPORT OF LATHERS' UNION OFFICIAL GIVES DIXON CREDIT.

HELPED SETTLE CHICAGO STRIKE

The Lather, the official journal of the Wood, Wire and Metal Lathers International Union, in its recent issue, contains a report of Vice President Booth covering work done in connection with the recent Chicago strike, and concerns Dixon and the local lathers' union, of which John J. Thome is president and John J. is secretary. The case referred to in the following article is the discussion over work being done at the state colony buildings:

At the request of President McSorley, I left Chicago June 21st to visit Dixon and Joliet, Ill., where some Chicago lathing firms, who had our men locked out in Chicago, were doing some work.

Both these lathing firms were members of the Employers & Erectors' association in Chicago, and while both were willing to employ L. I. U. men, on these out of town jobs, they were not willing to lay off their strike breakers in Chicago. After a conference with Secretary Madick of Local 199 of Dixon, and Secretary Buell of Local 19 of Joliet, both these brothers helped in keeping the jobs tied up. Both jobs were finally released, after a settlement of the Chicago trouble was effected, and a three-year

BONDS ARE PLACED AT \$1,500

A complicated case was heard this morning in Magistrate Kent's court, and from testimony adduced the magistrate bound Peter Brovinsky over to the January grand jury on a charge of obtaining money under false pretenses. His bond was placed at \$1,500.

From the evidence it appears that Brovinsky, who claims to have had dealings with the Chicago Communist company which furnishes provisions to railroads and construction camps, to furnish provisions for a crew of 25 men he brought to Nelson Sunday to work for the Northwestern road. According to letters offered in evidence the men were told they could earn \$62 per month by working Sundays. On the day out he borrowed \$1 from one Christ Kovacheff, interpreter with the party, on the pretense that he wanted to send a telegram to Chicago.

On arriving at Nelson he told the men it would be necessary to put up \$24 with Storekeeper Klaus Seibolt at Nelson before they could secure provisions. This it is alleged was done and later in the day Brovinsky is charged with having gone to Seibolt and secured the money. The interpreter learned Brovinsky had the money and he located him as the afternoon train was pulling into Nelson bound for Chicago. Special Agent Atkinson of the road happened to be on the station platform and he was informed of what had transpired, and when the train reached Dixon Brovinsky was turned over to Chief of Police Tourtellott, who was at the depot on other business. Kovacheff came to Dixon on the same train and went before Magistrate Kent and swore out the warrant.

APPLY STATE MONEY ON BONDS

State Allotment Can Be Used To Pay Off the Bonds As It Comes In.

Good roads workers in Lee county are interested in a road law passed by the last legislature giving counties a right to advance funds to construct state aid roads in advance of the allotment, to issue bonds for purpose if desired and apply the state allotment to payment of the bonds.

The amendment, contained in copies of the session laws received here this week, provides: "If any county desires, more rapidly than its allotments of state aid road moneys will permit, to construct a state aid road along any one or more of its highways that have been selected and designated under the provisions of this act as state aid roads, such county is hereby authorized to advance, out of any county funds available from any source for such purpose, the entire cost of constructing such state aid roads and to make improvements at any time. Such county shall, in such case, have the right to use any allotment of money made to it by the state highway commission to defray one-half the cost of constructing new state aid roads* * * or to apply the money on the payments of any bonds or other obligations which have or may be issued by such county, under any law of this state, to meet the cost of the construction of any state aid roads constructed by the county at its own expense."

ROCK BALLASTING NEARLY COMPLETED

WORK BETWEEN NACHUSA AND DIXON TO BE FINISHED THIS WEEK.

The work of ballasting the main line of the Northwestern road both east and west of Dixon with rock will be wound up for the season this week. The work will have been completed between Nachusa and Dixon within 800 feet of the Chicago road viaduct and the gang working east of Nelson will have gone as far as Locust cut. This stretch of less than four miles is all that will have to be done next year to complete the ballast of the line from Chicago to the Mississippi river. The rock is secured from quarries at Elmhurst and Ives, Wis., and is very hard white rock.

Mr. Sproul was a passenger on the train and he was the first man whom the robbers accosted and forced to "shell out." His contribution to the cause was something over \$5. There were six robbers in the band which waylaid the train, two of whom boarded the engine while the others took the passengers' money.

A tooth-pick is an instrument of torture—not to the man who uses it, but to those who watch him. It is the unpollitist's tool known to the men who eat their soup with a suction dredge accent and try to make good conversation pass on a single track road would shudder at the idea of using a tooth-pick in public.

Men who have served in the war and who can defend themselves against a dozen men with a cavalry sabre become pale and nervous when a stranger pulls one of these terrifying table instruments on them and retires hastily.

The tooth-pick is not as damaging in its results as the pipe or cigarette, but public opinion is very much down on it and it has no social standing whatever.

If we were to be given the task of picking a man who was absolutely fearless regarding public opinion we should unhesitatingly pick out a man who has the nerve to stand in front

of an exclusive hotel with a tooth-pick in his mouth.

Still, the tooth-pick is a necessity and a few rules for its use might not be out of place.

In the first place, the performer should change his name in order to avoid disgrace when caught. In minor adventures like stealing railroads or elections he can work under his own name. But in these cases the censure is not so scathing.

Having changed his name, the performer should then pick out a large ocean and wade into it about seven miles where he will be safe from observation. By that time he will not need the tooth-pick anyway and his reputation will be saved.

Of late years we have come to converse unflinchingly in high social circles on subjects which would cause an Iowa family dinner party to run for the nearest disinfectants. We are not easily shocked by any sort of conversation nowadays in advanced quarters. But we still maintain a dignified horror of the tooth-pick.

This is good. Society needs to be horrified about something. If it should give in and indulge in the tooth-pick as fearlessly as it does in divorce we would have no ideals left at all.

win regular places on the team.

Alexander's great work in the box during the season has placed him in the limelight as the star pitcher of the National league and the backbone of the Quaker City team. If the series goes to the limit of seven games Alexander, it is expected, will be on the mound in at least three games, beginning with the opening clash. After he had won his thirtieth game, a few days ago, Alexander when asked what he would do in the world's series, replied: "Just what Manager Moran tells me. I have been well supported by my teammates and I must say they have saved me frequently. Boston may boast of some great hitters, but I think we have some fence busters on the Phillies who will equal the Boston sluggers."

With Mayer, Demaree, McQuillen, Chalmers and Rixey on his pitching staff, Manager Moran feels that he has a formidable array of boxmen to back up Alexander in attacking the Red Sox' defense. The infield composed of Luderus, Niehoff, Bancroft, and Stock is a strong combination and Cravath, Paskert and Whitted are well able to care for the outer gardens.

Captain Luderus stands second in the batting list of the National league and with Cravath, Whitted, Becker, Stock and Niehoff the batting of the Moran team shows considerable strength. Should the majority of contests be played on the Philadelphia grounds, that the park with its short fences will suit the home hitters much better than the visitors is the opinion shared in by many close followers of the game.

Including Manager Moran five members of the Philadelphia Nationals have been members of former world's series teams. The other four are: Demaree, Whitted, Becker and Duguey. Moran was with the Chicago Cubs when Frank Chance was manager of the National League pennant winners. Demaree was with the New York Giants in 1913. Whitted played with the Boston Braves last year. Beals Becker was with the New York Giants in 1911 and 1912 and Duguey was with the Boston Braves last year.

Compared with their Philadelphia opponents the roster of the Boston Red Sox includes many world's series winning veterans which naturally gives the New England team the advantage at least of experience. Ten of the players who were on the championship eligible list for Boston three years ago are still wearing the Lanolin uniforms. Jack Barry who was with the Athletics of Philadelphia through victory and defeat is an additional help this year. Only two old pitchers, Wood and Collins, are now with the team. The former, however, may not be called upon during the coming conflict while the veteran southpaw Collins has not been able to reach the standard of merit attained in former years.

Manager Carrigan has a fine staff from which to select moundmen and it looks as though the bulk of work in this department will be entrusted to Leonard Shore, Foster and Roth during the series. Shore and Foster are right handers and the other two are left handed twirlers. Then there are Gregg and Mays who with Collins and Wood form a strong reserve to be called upon in case it becomes necessary. Ruth and Gregg are among the 300 hitters this season, while Leonard, Wood and Foster also have proven to be very useful batters. Certainly Carrigan has no need to worry as to the strength or ability of his pitchers.

Tris Speaker, the player most talked of on the Boston Red Sox team, together with Lewis and Hooper, make up the great outfield, considered by many to be the best in the country. These three have been playing together for several years and understand each other so well there is not a hitch to mar the smoothness of their play. Speaker, of course, is the pillar of strength on the team and while he has not been credited with a home run hit this season, his batting average of .332 speaks for itself; 24 two baggers and 12 three base cracks in addition to 771 singles make up the sum of bingles credited to the outfielder, so far as the records go this year. These, together with 14 sacrifice hits and 28 stolen bases as well

as a fielding average of .975 testify to the usefulness of the big Texan, who at bat and in the field has earned a place among the greatest players in the history of the national game.

Left-fielder Lewis, who has played with the team half a dozen years, also has a fine season's record. With a fielding average of .933 Lewis made 156 base hits, 29 doubles, 7 three baggers, two homers, sacrificed 29 times, and stole 14 bases. His batting average is .295.

Hooper, the other member of the outfield, has a fielding average of .974. His contributions with the stick include 130 singles, 18 doubles, 14 triples, 2 circuit walkups and 16 sacrifice hits, a batting average of .242. Besides pilfering 17 bases.

As to the infield of three years ago, Gardner and Wagner still remain, but the latter is not likely to be seen in the coming series. Gardner at third base, however, is well to the fore among the hitters. Always dangerous with the bat, he is a first class fielder with an average of .923.

The Red Sox did not "find themselves" as a league leading combination until accession of Barry. His conversion from shortstop to second base was the deciding factor in Boston's progress pennantward.

The coming of Barry resulted in an unusual alignment of "Keystone combinations." As preparation against accidents, Manager Carrigan has an interchangeable combination in the infield. Four short stops are available; Scott, who plays the position regularly; Janvrin, his understudy; Barry, who played a star game in that position for so many years with the Athletics, and Heinie Wagner, Red Sox regular at short in the world series of 1912. The three latter men are available also as finished second basemen, and Janvrin and Barry can bring experience to relief of Gardner at third base if necessary. First base is protected by the reversible pair, Hoblitzell and Gainer. Both are good fielders, but Hoblitzell is stronger as a batter against right hand pitchers while Gainer gets best batting results from the delivery of the left handed pitchers.

remarkable aptitude to do the right thing at the right time during the long season's grind. Quick thinking and fast, accurate action are the essentials which make great baseball players. While the two players mentioned have shown wonderful control and effectiveness in their positions, a great deal should be said about many others who, while not so prominent, have been equally efficient in their pennant winning work this season either at bat, on the paths or in the field.

In the minds of many baseball experts Manager Moran's feat of making a supposedly mediocre team a pennant winning aggregation is equally as great a performance as that accomplished last year by George Stallings with the Boston Braves. The Morans are virtually a "cast off" team, as thirteen of them were let out by other major league clubs. Captain Luderus was once with the Chicago Nationals; Killifer was tried by St. Louis and let go; Adams was with the New York Giants for a short time; Demaree came from the Giants and McQuillen played with Cincinnati and Pittsburgh; Niehoff was with Cincinnati; Duguey and Whitted came from the Braves; Stock was transferred to Philadelphia by New York; Byrne was once with St. Louis and Pittsburgh; Cravath, the fence demolisher played with Boston, Chicago and the Washington Americans, New York Giants and Cincinnati.

HAIR AND SCALP NEED DAILY CARE

Beautiful Hair Is Within the Reach of All

If you value the appearance of your hair you should treat your scalp as often and well as you brush your teeth and rub into the scalp pores twice daily a little Parisian Sage. This treatment is not a mere "hair tonic." It is bottled nourishment for the hair roots and it is simply wonderful what an improvement its use for even a week will make in the appearance of anyone's hair. It never injures, is delightfully cool and pleasant to the scalp and takes out the dull, lifeless look in the hair, making it soft, fluffy, glossy and beautiful. Two or three applications remove every trace of dandruff, and daily use will prevent its return. Rowland Bros. and the leading druggists everywhere can furnish you with Parisian Sage—it costs but a trifle.

Club Activities Begun
Club activities have now begun in earnest and the society editor, after a season when every bright prospect of a picnic to tell about was blighted by a postponement because of rain, has something to depend upon for the society columns. Oh, blessed relief!

The Phidian Art club resumes its sessions today with a promising program for the year. The members will study "Our Own United States," and starting with "Historic Boston," will take up New England, its art, story, and song. Philadelphia the Quaker city, will receive due attention, with its colonial history receiving particular stress. Washington, and cities of the South will be studied in their turn. The end of the year finds the club studying New York state with its ever interesting history of the Knickerbocker period. The topics outlined and the time devoted to each, indicate that the study of our country will be quite exhaustive and of several years' duration.

WOMEN MAY BE STRONG
and enjoy life whether in the home or business world if they can keep at bay those ailments peculiar to their sex. If every woman realized how Lydia E. Pinkham's Vegetable Compound, that simple remedy made from roots and herbs, goes to the root of the trouble and overcomes such symptoms as backache, headache, nervousness, and irritability, they would be healthier, happier and stronger. If you suffer from any form of female ills why don't you try it? It will pay you to do so.

DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH

Look at tongue! If coated, clean little stomach, liver and bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative" and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet. Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

Dandruff Soon Ruins The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

How To Make the Quickest, Simplest Cough Remedy

Much Better than the Ready-Made Kind and You Save \$2. Fully Guaranteed.

This home-made cough syrup is now used in more homes than any other cough remedy. Its promptness, ease and certainty in conquering distressing coughs, chest and throat sore, is really remarkable. You can actually feel it take hold. A day's use will usually overcome the ordinary cough—relieves even whooping cough quickly. Splendid, too, for bronchitis, spasmodic croup, bronchial asthma and winter coughs. Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you—at a cost of only 54 cents—a full pint of better cough syrup than you could buy for \$2.50. Takes but a few minutes to prepare. Full directions with Pinex. Tastes good and never spoils. You will be pleasantly surprised how quickly it loosens dry, hoarse or tight coughs, and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. Pinex is a most valuable concentrated compound of genuine Norway pine extract, rich in guaiacol, which is so healing to the membranes. To avoid disappointment, be sure and ask your druggist for "2½ ounces Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

"DOGGED DOES IT."

Every boy ought to read the story of the rise of Sir William van Horne from messenger boy to one of the greatest railway builders and presidents in the world.

His life motto was: "Dogged does it." Look in Webster's dictionary and you will see that "dogged" means "obstinately determined or persistent."

That was the quality that made William van Horne, the messenger boy, one of the greatest men of his day. When he was a very small boy, an orphan, poor and living on a farm in Illinois, he was deeply interested in geology. A neighbor boy had a copy of "Lyell's Principles of Geology." The van Horne boy wanted to borrow it but the other boy would not lend it. Young William paid him \$2 for the use of the book for six weeks. Then he bought some foolscap paper and spent the nights of the latter part of November and all of December in his cold garret copying the book, and almost freezing. He copied the whole book, and he made a pen and ink reproduction, as well as he could, of every one of the thousand pictures. When he had finished the book he knew every word of it.

It was this passion to learn, this thoroughness and ambition and dogged determination and energy that made him successful. He gained an efficient knowledge of everything he undertook to do, and it is related of him that when he went to build the Canadian Pacific railroad he knew more about how to lay a track than men who had worked at that and nothing else all their lives. Yet the laying of a railroad track was only one of thousands of things that William van Horne had learned how to do, and do thoroughly.

That motto of his is a good thing for every boy to remember: "Dogged does it."—Kansas City Times.

AN UNLUCKY MAN.

John D. Rockefeller Jr. is likely to learn something from his trip through the Colorado mines. He may decide to sell them and let someone else carry the moral burden of absentee ownership. But if he sells his Colorado holdings he will have to invest the proceeds in some other enterprise, and if he continues to derive an income from it he will be as responsible for labor conditions in that enterprise as he was for conditions in Colorado. If he invests in land he will be partly responsible for the buildings that go up on the land and the things that take place in those buildings.

By putting his money in the bank, or by loaning it to the United States government he can make his burden less direct, but he cannot absolutely shake it off. So long as he gets an income from any field or industry he is partly responsible for the sins of industry. So long as any portion of his spending money is tainted with injustice or suffering he will buy it at a good stiff price, because he will have to personify evils that he, unaided, cannot cure. He is one of the unluckiest men in the world.—San Francisco Bulletin.

INTENTIONS ARE NOT BOMB-PROOF.

We read much in the newspapers about what a grand navy we are going to have, says the Elgin News. We hear about the wonderful new submarines that will surpass in effectiveness anything else of the kind in existence. Washington tells us about new superdreadnaughts that will be torpedo proof. But promises and paper will not stop an enemy. The navy as it is today is the main thing. With half the world in flames, it should be ready right now for business. But we learn that it is less efficient than last year and that it is only partially manned. It is time this important part of the national defense were put into the hands of practical men rather than those of some land-lubber who cannot tell the difference between a submarine and a dreadnaught.

WHY GERMANS GIVE FREELY.

The splendid success of the latest German war loan reflects the extraordinary enthusiasm of the people and their unbounded confidence in complete victory. The Russian campaign has aided the war loan enormously no doubt; but the nation also has the public assurance of the government that its war debts will be paid finally out of the stiff indemnities German military pressure will squeeze out of the empire's enemies. What if the war loans of the government do exceed six billions of dollars already, no German fears he will not get his money back from a government that intends to make the enemy pay all of its bills.—Springfield Republican.

TOUR OF WEST WAS ENJOYED BY MANY

LEFFINGWELL'S ILLUSTRATED TRAVELOQUE AT THE OPERA HOUSE WAS FINE.

The first of a series of entertainments to be given during the winter by the Men's club was held last evening at the opera house, when William Bruce Leffingwell delivered one of his travel talks. Mr. Leffingwell has been a great traveler and being a close observer has gained much enlightenment, which he imparts to his hearers in a pleasing manner. Last evening in his talk, he started with his audience at Omaha and made stops at all points of interest in the Rockies. At Denver, Colorado Springs, Manitou and Salt Lake City automobile trips to points of interest were taken. On reaching the Pacific slope many attractive scenes were shown and a visit was made to the expositions at San Francisco and San Diego. Moving pictures were shown of the crowds and places of interest on the grounds. It made an evening of race enjoyment. Later on an effort will be made to get Mr. Leffingwell here to give his talk on Yellowstone Park.

CONSTIPATION

The Most Prevalent of Ailments. The Cause of Almost All Illness

If you are constipated, your blood is full of impurities, your kidneys are clogged, your liver and stomach are out of order, your nerves are weak and faulty.

MUNYON'S LAX-PAW PILLS remove the most stubborn constipation. If you take after eating, if you have belching, flatulence, heartburn, water brash, sour stomach, if you are nervous, if you are unable to sleep, you need MUNYON'S LAX-PAW PILLS. Every little gives satisfaction or your money refunded.

the Power behind the dough

You may use an old favorite recipe and the best of materials and make it carefully, the oven may be just right, yet you will have a failure if "The Power behind the Dough" is not the right one to leaven it properly and make it light, digestible, wholesome.

Good baking without good baking powder is out of the question. K.C. Baking Powder has wonderful leavening power, and the double action—in the bowl and in the oven—makes good results doubly certain.

Take no chances of failure—use K.C. and have "good luck" every time.

To the Man Who Draws the Line

THERE are scores of them here at home—men who draw the line sharply between headwear that is smart and correct—and the kind that fears it will not be seen unless it makes a big noise.

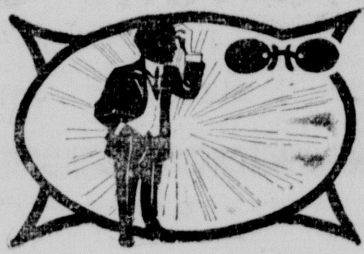

For men who appreciate style and dress we offer the *Stetson Hats*.

Especially interesting, in view of the more formal note in men's dress, are the regular and *Self-conforming* Derbies—with the slightly tapering crown, the roll and dip in the brim.

PRINCESS THEATER

Tonight the Princess theater has on its bill a splendid two reel feature entitled "The Barren Gain," with Vivian Rich and Walter Spencer in the leading roles, an enthralling version of "The Other Man," question, and a young girl's love and sacrifice. The other pictures are "The Film Johnnie," a Keystone comedy with plenty of laughs and excitement. The last reel is a novelty comedy entitled "The Lilliputians' Courtship," a very funny comedy.

FAMILY THEATRE.

The present excellent vaudeville bill of the Three Bartolles Bros., comedy acrobats, Pearl Fell, dancer, Murry K. Hill, comedian and Richard the Great, the monkey who made a man of himself, will be presented at the Family on this and tomorrow evenings with change of pictures. Two large crowds were in attendance last evening and it is proof conclusive that the people of Dixon are enjoying the new policy of the Family in that no ads are shown on the screen, thus eliminating the tiresome wait between shows, also the installation of two picture machines so that a two or more reel picture can be shown continuously with no breaks between the reels, and last but not least the new pipe organ with its orchestra attachments, which is so thoroughly enjoyed.

This evening Reinde Davis will appear in the four reel picture play of "Sunday," made famous by Ethel Barrymore.

Victor supremacy

Full tone — Soft tone — Subdued tone

The Victor Needle produces the full tone as originally sung or played—particularly suited for large rooms and halls, and for dancing.

The Victor Half-Tone Needle reduces the volume of tone and gives you the effect of sitting in the middle of an opera house or theatre.

The Victor Fibre Needle produces a rich, subdued tone that takes you still further back—a tone that will delight the discriminating music-lover.

Victor system of changeable needles

If a fixed or permanent point were the best method for playing records, you may be sure the Victor Company would equip the Victrola with a fixed point.

There is nothing new about a fixed point. It is the old original method that was used on the cylinder phonographs for the past forty years, which have been superseded by the Victor and Victor Records and the changeable needles—the **only** method that insures a perfect reproduction in exact accord with the artist's interpretation.

All disc machines are more or less imitations of the Victrola—the Victrola is the original instrument of its kind, and years of continuous experiment with the lavish expenditure of millions of dollars for scientific research have placed it upon a pinnacle of supremacy that is unassailable.

Genuine Victrolas \$15 to \$300. Terms to suit your convenience, if desired.

DEMENTTOWN DOINGS

This is the story of a swiped automobile, a reward for its return, and a feed which the reward purchased. It is also and likewise the tale of the righteous ire of George Netzt, genial garage prop, and in this case, chief detective in locating the car. He was also chief mourner over the banquet. All one has to do to make Mr. Netzt forget that he is in the automobile business, and make him a forceful orator is to ask him how he enjoyed the banquet. Truly we are sure none of his friends realized that he was such a clever "after dinner" speaker—only he wasn't in on the dinner.

When word came from Bloomington, Ind., last week that a couple of boys had run away with the automobile belonging to the father of one of the lads, there was attached to the request for information, a statement that a reward of \$25 would be paid for information leading to the return of the car.

By virtue of much clever detective work the authorities learned from Mr. Netzt that the car had been in his garage, and being an accommodating young man, the auto expert opened up his heart, told the police where the boys had gone, and even cranked up a machine and took the officers into Whiteside county and to the car. The rest was simple, and the big feed held last evening was a decided success—but Mr. Netzt was not even permitted to look through the window.

However he is a philosophic sort of a fellow, and he believes that virtue is its own reward; and besides he's not running any chances of indignation—when he isn't asked.

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

You KNOW that old stove eats up a lot of fuel each year. You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for every repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

THE GREAT MAJESTIC MALLEABLE AND CHARCOAL IRON RANGE

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a removable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

agreement signed up. The tying up of these jobs had a considerable bearing in bringing about the Chicago settlement sooner than was expected. I wish to express my thanks to Locals 19 and 199, and especially their secretaries, with whom I did business, for the manner in which they responded to our request for assistance.

The Chicago settlement was a clean cut victory for the Chicago lathers, and I believe it will be some time before the bosses undertake to give us a fight in this city again.

WHY WOMEN SUFFER

MANY DIXON WOMEN ARE LEARNING THE CAUSE

Women often suffer, not knowing the cause.

Backache, headache, dizziness, nervousness, irregular urinary passages, weakness, languor—

Each a torture of itself. Together hint at weakened kidneys.

Strike at the root—get to the cause.

No other remedy more highly endorsed than Doan's Kidney Pills.

Recommended by thousands—Endorsed at home.

Here's convincing testimony from a Dixon citizen.

Mrs. W. Geiger, 1218 W. Sixth St., Dixon, says: "I get a dull pain in my back, especially when I wash or sweep much. As soon as I feel one of these attacks coming on, I use Doan's Kidney Pills, which I procure at Leake Bros. Co.'s Drug Store and they never fail to remove the trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Geiger had. Foster-Milburn Co., Props., Buffalo, N. Y.

WAR LOAN OVERSUBSCRIBED

It is Estimated That Total Has Reached \$640,000,000.

New York, Oct. 5.—According to reliable reports the Anglo-French loan was over subscribed nearly \$100,000,000 last night. The books of the syndicate closed at ten o'clock today. It is thought the over subscription will amount to in the neighborhood of \$50,000,000, making the total amount \$640,000,000.

It is asserted that it took just nine-six hours for American financiers to raise the \$490,000,000 which must be subscribed before rebates of \$10,000,000 can be paid. This hour was passed Saturday evening and then the \$490,000,000 which is to go to the two countries in return for \$500,000,000 in bonds had been pledged.

The pleasant part of the chilly Autumn evenings is the enjoyment and comfort of your fire-place—and no fire-place is quite complete without a pair of AND-IRONS. We are showing a variety—all of which are reproductions of old-time shapes of artistic merit. They cost from \$3.25 to \$5.00 a pair.

We also show Coal Grates for fire places which may be set directly on the hearth or laid across the Andirons.
